

United States Department of Energy
Synopsis
Savannah River Site (SRS) Integrated Mission Completion Contract (IMCC) Procurement

This notice is a synopsis in accordance with FAR Subpart 5.2 for the SRS IMCC procurement. Within 15 to 45 days from the date that this notice is published, the U.S. Department of Energy (DOE) anticipates the issuance of a Draft Request for Proposal (RFP), 89303319REM000055, for the SRS IMCC. The SRS IMCC contractor will provide a comprehensive risk-based methodology to the legacy cleanup project, such as the dispositioning of radioactive liquid waste through the Salt Waste Processing Facility followed by vitrification of the high activity component at the site's Defense Waste Processing Facility and using existing SRS facilities to receive, store, and disposition aluminum-clad Spent Nuclear Fuel. Critical scope covered under this contract includes, but is not limited to, Project Management and Support Services, Liquid Waste Stabilization/Disposition and Nuclear Materials Management and Stabilization.

The new contract resulting from this acquisition will replace the Savannah River Site Liquid Waste Contract, and will also include some portions of SRS M&O Contract, i.e., Nuclear Materials Management and Stabilization. Both the SRS Liquid Waste and M&O contracts expire on September 30, 2020.

This procurement will be 100% full and open competition. The Government does not intend to acquire a commercial item or service using FAR Part 12. The North American Industry Classification System (NAICS) code for this requirement is 562910, Environmental Remediation Services, and the small business size standard is 750 employees. Further information concerning size standards can be found at the following website:

<https://www.sba.gov/federal-contracting/contracting-guide/size-standards>.

A dedicated webpage has been established for this procurement. All news/announcements, documents (including the Draft and Final RFP), questions/answers, pre-solicitation conference information, and related links will be posted to the following webpage:

<https://www.emcbc.doe.gov/SEB/SRSIMC>. The Draft and Final RFP will also be posted to the FedConnect website at: www.fedconnect.net.

DOE intends to conduct a pre-solicitation conference, site tour and one-on-one sessions with interested parties for this procurement. Interested parties are encouraged to review the Draft RFP prior to the pre-solicitation conference, site tour and one-on-one sessions. DOE anticipates scheduling these activities approximately three weeks after issuance of the Draft RFP. Interested parties should continue to monitor the SRS IMCC Procurement website for specific details at: <https://www.emcbc.doe.gov/SEB/SRSIMC>.

No additional synopsis will be released prior to issuing the Draft or Final RFP.

Contracting Office Address:

U.S. Department of Energy
Environmental Management Consolidated Business Center (EMCBC)
550 Main Street, Room 7-101
Cincinnati, OH 45202

Place of Performance:

The principal place of performance of the SRS IMCC will be the United States Department of Energy Savannah River Site, located near Aiken, Barnwell and Allendale counties, and is bordered on the west by the Savannah River and the State of Georgia.
